

STATEMENT OF PURPOSE

RS21363

This legislation provides a statutory framework for the State Department of Education's review of online courses, which is a function that the Department is required to perform by Section 33-1627, Idaho Code. It also formalizes the Department's longstanding practice in the area of textbook and curricular material reviews.

FISCAL NOTE

No fiscal impact to the General Fund, since the fees charged to providers for online course reviews would be sufficient to defray the Department's costs.
